- PHP
- Python
- Java
- ASP.NET
- SQL & MySQL
- Google Cloud Platform
- WordPress
- Git
- Blender

## LANGUAGES

- Portuguese (Native)
- English
- Spanish

## PROFILE

Technology has always sparked my curiosity, and programming became the way to turn ideas into real solutions. I work mainly with C# and Python, which I've used in most of my projects to explore different challenges. I enjoy taking on new projects, learning, and applying knowledge in practice, constantly growing as a developer.

## WORK EXPERIENCE

### Republica Digital
**June 2025 - August 2025**

Web Developer - **Internship**

- Developed two websites for different companies using the CMS WordPress.
- Contributed to the restructuring of PHC Cegid tables, enabling clients to easily choose the plan they wanted.
- Managed website hosting and deployment through Plesk.

### Reloading
**February 2023 - July 2023**

Full-Stack Developer - **Internship**

- Refactored and migrated a legacy solution to a modern environment using ASP.NET and .NET WebApp with Razor Pages, enhancing overall system performance, scalability, and maintainability
- The process included code optimization, performance improvements, and the implementation of new features aligned with current business needs. In other solution, integrated React for dynamic front-end components and utilized Swagger for API documentation and testing.
- Worked within Agile methodologies, ensuring iterative delivery and continuous improvement.
- Technologies used also include SQL for data management and reporting.

### Volkswagen Group Digital Solutions
**April 2021 - June 2021**

Web Developer - **Internship**

- Developed a web-based Node.js tool to generate random names from a predefined list. Designed as a fun feature for employees to use in company games.
